Social Internship

Indian Red Cross Society, Nalgonda District Branch,

Date: 02 Jul, 2025 – 16 Jul, 2025

This internship was conducted as part of the B.Tech 1st-year academic curriculum. The primary objective of the internship was to support community welfare activities and develop social responsibility, communication, and teamwork skills. During the internship, participated in various awareness and service activities organized by the Indian Red Cross Society. Additionally, gained practical exposure to leadership, coordination, and public interaction, which enhanced overall personality and professional development.

PROJECTS

Health care appointment system 30 Dec, 2025 - 02 May, 2026

Mentor: k.srividya | Team Size: 4

Key Skills: HTML Problem Solving Team Coordination Project Planning Time Management Documentation

Developed a Healthcare Management System web application to simplify doctor appointment booking, patient management, and healthcare services through a digital platform. Collected details about healthcare-related problems, gathered background information, analyzed user requirements, and assisted in project planning, frontend support, and documentation. Studied existing healthcare systems, researched online appointment management, and identified problems faced in manual hospital processes.

Problems Identified:

Delay in appointment booking

Poor patient record management

Lack of centralized healthcare system

Communication gap between patients and doctors

Project Outcomes Obtained:

Created an easy-to-use healthcare website

Improved appointment management process

Enhanced digital healthcare service access

Gained practical experience in web development, teamwork, and problem-solving skills

PERSONAL INTERESTS / HOBBIES

- reading and watching tv
