PROJECTS

Cricket Score Generator (Match Simulator) Mentor: Srividhya, Academic Project Team Size: 1 Key Skills: Java, OOP Concepts, Problem Solving, Logic Building, Random Class, Control Statements	01 Jan, 2026 - 05 Feb, 2026
Developed a Cricket Score Generator that simulates real-time cricket match results using programmed logic. The application generates random scores including runs, wickets, and overs to mimic real match scenarios such as T20 and ODI formats. Implemented conditional statements and randomization techniques to create dynamic and realistic outputs. This project helped strengthen core programming concepts like control structures, loops, and algorithmic thinking. The simulator can be further enhanced with a user interface and live match visualization features.
